

## **Protingent Staffing Earns Spot on Inc. 5000 for the Fourth Consecutive Year**

**Redmond, WA- Aug 10, 2009** – Protingent Staffing, a firm that specializes in providing engineers for technology projects, announced today that it has been listed for the fourth consecutive year on the Inc. 5000, an exclusive ranking of the nation's fastest-growing companies.

Protingent Staffing earned a coveted spot on the Inc. 5000 list with a three-year growth rate of 59.1%. Since its founding in 2001, the firm has made the list every year it was eligible to participate. Revenue grew from \$8.3 million in 2005 to \$13.2 million in 2008, due mainly to growth of its new West Coast operations in Oregon and California, and the addition of an East Coast office in New Jersey.

With a large talent pool of carefully-vetted engineers and technicians, Protingent Staffing is in an ideal position to match the best candidates with the most exacting requirements of the software, telecom, and aerospace industries. The combination of best-of-breed engineers and a top-tier staff of employment professionals powers Protingent Staffing's ongoing accomplishments and continues to propel the company, in its 7<sup>th</sup> year of business, to being one of the most dynamic temporary staffing firms to serve the tech industry.

Protingent's President and CEO, Donn Harvey, himself an engineer, believes his company is growing because it has maintained its focus on technology staffing while successfully expanding into new markets. "Being in multiple markets has allowed us to become a supplier of choice to more technology companies nationwide," said Harvey. "A bigger footprint has made us even stronger in local markets." More and more hiring managers seeking engineers have discovered that Protingent Staffing is one place they can always find excellent candidates. At the same time, engineers looking for work know that Protingent is in the best position to find them temporary or permanent job assignments. "It's a win-win situation," Harvey added. "The more chances we have to fill key engineering slots with top talent, the more success we seem to enjoy."

**About Inc. Magazine**

Founded in 1979, *Inc.* ([www.inc.com](http://www.inc.com)) is the only major business magazine dedicated exclusively to owners and managers of growing private companies. Each year, *Inc.* celebrates the outstanding achievements of the privately held small businesses that drive our nation's economy. Companies listed in the Inc. 5000 for 2009 are ranked according to percentage revenue growth from 2005 through 2008. View the complete Inc. 5000 list online at Inc.com.
