

Protingent Staffing is Ranked #22 Fastest Growing Private Staffing Firm in the United States by Staffing Industry Analysts.

Redmond, WA- July 10, 2008 – Protingent Staffing announced today that it was ranked #22 on America's Fastest Growing Private Staffing Firm list for 2008 by Staffing Industry Analysts with a compound annual growth rate of 53% for the period.

A total of 61 companies made this year's list of fastest-growing staffing firms, also known as The 25% Club. That's up from 47 last year. The median compound average annual growth rate for the firms was 42.6%. To make the list, companies had to have a compound annual growth rate of more than 25% between 2003 and 2007, adjusted for acquisitions. Companies also had to be privately held, U.S.-headquartered and independently owned. In addition, they had to have sales of at least \$1 million in 2003.

Protingent Staffing is a market leader in technology staffing in the west coast region of the United States with offices in Redmond, WA, Portland, OR and San Jose, CA. Donn Harvey, President of Protingent Staffing points out that the growth is a direct result of their focus on technology staffing, increasing business from each of their clients and most importantly increasing their client base to over 150 technology companies in the Software, Telecommunications, Medical Device and Aerospace industries. "Our broad client base and range of industries help protect us from isolated down turns and has allowed us to continue in a steady growth pattern," said Harvey. Continued growth is expected through franchise expansion, in 2007 Protingent Staffing received approval by the FTC to sell franchises in select markets.

Protingent Staffing delivered revenue of \$13.17 million for 2007 and is projecting \$16.0 million for 2008. The company was founded in 2001 and is headquartered in Redmond, WA.
